

# TRUSTED PROTECTION

IMMEDIATE. FOOLPROOF. AFFORDABLE. COMFORTABLE.

No Training Required—Simply Open and Put It On  
Fits Ages 3 Years and Under  
Instant-On (and very quiet) Blower  
Operates for 4 Hours  
Visually Clear Hood

## PROTECTION

- Protects against chemical warfare agents and biological, radiological, and nuclear inhalation particulates.
- Equals military C2A1 filter performance
- Visor and hood materials tested against agents GB, HD, and VX.

## COMFORT

- Positive pressure hood protects children with respiratory ailments, long hair, eyeglasses
- So lightweight, it's virtually indiscernible
- No uncomfortable nose cup  
*(as in most un-blown hoods)*
- Allows for normal speaking and hearing
- Permits rapid donning on children by supervising adult

BABY  
**SCAPE**hood

FOR ESCAPE FROM CHEMICAL/BIOLOGICAL/RADIOLOGICAL THREATS

PATENT PENDING

**ILC DOVER INC**

**Made in USA**

From the designer/manufacture of NASA space suits and producer of US Army M40/M42 chemical-biological masks.

*When Imminent Danger Requires Immediate Protection—Baby SCAPE Hood*

## FEATURE

## BENEFITS

AUTOMATIC BLOWER ACTUATION

Fool-proof operation. Blower automatically starts when hood is removed from case. User only has to put on the hood to be protected.

NO NOSECUP

Eliminates sizing difficulties. Dramatically improves communication.

BLOWER INDICATOR LIGHT

Allows supervising adult (*including hearing impaired individuals*) to determine that product is operating.

CLEAR HOOD/LARGE VISOR

Allows user to perform a wide range of tasks.  
Allows facial recognition.

QUIET 45 LPM BLOWER

Delivers reliable protection with no training.  
Eases physiological burden on user. Reduces claustrophobic feelings associated with other hoods.

EXHAUST VALVE

The integral exhaust valve regulates/maintains positive pressure within the hood.

POLYCARBONATE BLOWER CONSTRUCTION

Made of high strength, durable materials.

FILTER CANISTER

Military grade canister provides protection against a range of military agents per MIL-PRF-51560. HEPA filter provides biological/radiological/particulate protection.

SEALED CASE

Five-year shelf life. Eliminates need to perform any operations (*e.g. filter plug removal*) after removing product from package.
